

A Strong Foundation

Hytera PT3 Series TETRA Radio

- Supporting users through a world class dealer network
- Ultra-clear Audio, Tough, Simple Operation

PT310

PT350

Industry

For users working in noisy and harsh environments like factories, ports or open mining, a very-easy to handle device which is able to deliver superb audio quality, is an industry expectation.

No matter what working environment they are in, PT3 series always stands up to the harshest environment and provides exceptional performance.

With its simple UI and easy operation, the PT3 series provides users less distraction during voice communication to help with operational efficiency.

Key Features

hi	Wide band with 380-475MHz	OLED	Highly clear OLED display with simple UI	
[22h])	Long battery life 22h with standard battery		Easy navigation through the	
¢°	Rugged with IP65/66/67/68 and MIL-STD 810G	(BTN)	simplified keypad, programmable soft keys. Eyes-free operation supported by rotary knob and voice announcement.	

Highlights

Wide Band Compatability

od he

The PT3 series radios come in two wide bands 380~475MHz,806~870MHz. Utilising wide bands in this way reduces cost in terms of stocking different frequency bands ensuring you can always support your customers regardless of what license they are granted.

Ultra-clear Audio Quality

With water-porting technology, any water that gets into the speaker cavity is drained out easily, ensuring audio clarity is maintained. Coupled with this is a patented microphone aperture design, which prevents any wind noise interfering with transmissions. The PT3 series radio delivers audio quality on both reception and transmission.

Reliability

Considering harsh outdoor or industrial environment, the PT3's rugged design and exceptional battery life makes it the right radio to deal with the challenges of these severe environment. A clever sunken screen design protects the OLED display from accidental damage, with IP65, IP66, IP67 and IP68 as well as MIL-STD 810G rating the PT3 series is perfectly suited to any severe environment.

Simple and Easy Operation

63

The PT3 with its reduced keypad but larger keys is easier to use than other small radios, with exceptional physical feedback when pressing keys even with gloves. With its simple UI and easy operation, the PT3 series provides users less distraction during voice communication to help with operational efficiency. With its clear OLED screen ensuring visibility even in bright sunlight and it's simple menu navigation makes using the PT3 easy and intuitive.

Easy Carry

Designed for industry use, PT3 series equipped a U type slot for belt clip attachment. It's easy to compatible with all kinds of belt without loose for drop and lose risk. Or rotatable ability makes pocket clip or shoulder clip possible.

The PT3 comes with the ability to support various carrying options. A "designed in" U slot for belt clips, which come in three sizes, (the longest supplied with the radio). As well as the option for fitting a Klick Fast attachment or wrist strap.

Accessories

PT3 series have a complete series of additional accessories, including audio, carrying, power and antennas to ensure that all customer use cases are catered for.
